10	Smyth Library site	1	Community cultural resource

Protected Lands - Land protected from development through conservation easement, restrictions, or outright ownership by an organization or agency whose mission includes protecting land in perpetuity; more than 50% of area will remain undeveloped.

1 Land protected by this method is typically private property.

2 Open Space Areas of Development, typically private property.

3 This piece of property does not have the same level of protection as the others. It is classified as unprotected public open space land.

Data Sources: USGS 1:250,000 scale Digital Line Graphs, as included in the ORANIT database. All base features derived by Computer Systems Research Center, Durham, NH, from aerial and feature data collected by ESRI/USGS. Protected Lands layer last updated 1995. Base map was digitized by the Candia Commission Planning Board and the New England Planning Board for the Regional Environmental Planning Program.

Digital data in this ORANIT represent the best of the contributing agencies' most information from the cited sources available.
